The Intelitech Group Launches Performance Dashboard

New offering helps drive agency performance with a unified view of collection activities

VANCOUVER, Wash. – May X, 2008 – The Intelitech Group, a business management and debt recovery consulting company, today announced that it has launched a new Dashboard offering aimed to provide agencies with an easy and intuitive way to monitor their collection activities.

The Performance Dashboard is a simple, web-based solution that delivers a unified view of collection activities enabling agencies to better understand key business drivers. This capability provides management with the means to quickly and efficiently drill down high-level information to obtain detailed review of root cause analysis responding to changing conditions in the collection environment and make important decisions in a timely manner. The solution is offered as part of its Acumen! scoring and analytics suite.

“Having easy access to data empowers users to make important decisions in a timely manner and quickly set new business strategies that can lead to results,” said Joe Beekman, COO, The Intelitech Group. “With the Performance Dashboard, agencies can identify trends early on and move quickly to make adjustments, obtain information to improve performance and continuously track and report on Performance Indicators critical to measuring the organization’s success—all right from your desktop.”

Powerful features built into the Performance Dashboard include:

- Visual Framework - Provides visibility across an organization

- Dynamic Analytics - Pictures can be modified and instantly updated to quickly find the data you are looking for
- Drill Down to Details – Drill from high level information to detailed review of root cause analysis
- Knowledge Sharing - Email analytics to clients and other business partners
- In Depth Trend Analysis – Gain insight into trends that affect the bottom line
- 24/7 Access – The Dashboard is available online, anytime, from any location with internet access
- Real-time Alerts – Request notification of important events, in real-time, through onscreen messages, email, and more
- User-defined Access – Users securely access only what they are privileged to view

For more information on the Performance Dashboard, please call 360-260-9780 or visit www.intelitechgroup.com.
