Work Smarter With Premier Analytics & Consulting

Ultimate® Analytics will help your company increase collections, reduce costs and help aid in strategic data driven business decisions. It does this by focusing on four key areas: *Account Segmentation, Workflow Automation, Reporting, and Data Enrichment.*

You'll have a team of consultants assigned to your company to help you understand your data and assure your success.

APPLIED DATA INTELLIGENCE WITH INTELITECH

“ We have seen recognizable improvement in our collection procedures and strategies using Ultimate Analytics. There is no question about the positive impact The Intelitech Group has had on our collection efforts and our account flow.

Lacey Cherrington | President & CEO
The Cherrington Firm

“ While the Intelitech products have made our agency more efficient and productive, it's the consultative partnership approach from Intelitech that has exceeded our expectations.

John Fleming | Office Manager
MCOT

Data Enrichment

We activate your data so it does the work for you. Smarter data means you can:

- Improve accuracy
- Minimize error
- Save time & operational costs

Account Segmentation

We'll help you segment your inventory properly by placing focus on the accounts that are most valuable to your organization. This will help you:

- Improve consumer reach
- Focus on profitable accounts
- Improve productivity

Workflow Automation

There are a number of ways we improve your workflow, some of those ways are through:

- Work strategies
- Account lifecycle intelligence
- Automation with message codes & scripting
- Ongoing consulting

Reporting

We provide dozens of standard and custom reports tailored to your business needs. With reporting you can actually use, you can:

- Evaluate performance through trend analysis
- Evaluate your business processes
- Assist with everyday decision-making
- Identify risk situations
